Conditions for Outdoor Performances

The Gilded Harps® is pleased to play at your outdoor event.

An outdoor setting creates a special ambiance for many festive occasions. Conditions in these surroundings are not always favorable for our fine, delicate instruments. For this reason, The Gilded Harps® offers these guidelines for our performance outdoors:

- Weather: There can be no precipitation (i.e. Rain, mist drizzle).
- Outdoor placement: The harp must be placed on a dry, level surface that is clear of debris. Grass, sand or dirt is not suitable. A platform of 4' x 8' ½" plywood is recommended and if necessary, must be provided by the client or the reception site. The harp must be out of direct sunlight, especially on hot summer days.
- Temperature: Musicians cannot perform in temperatures lower than 60° F.

We appreciate your efforts to comply with these guidelines. For further assistance, please feel free to call us at (978) 443-0656. Thank you.
